SCIENTIFIC PROGRAM

The scientific program includes invited lectures, oral
and poster presentations on the following topics:

1. New Concept Super-High Efficiency Solar Cell
2. Dye-Sensitized Solar Cell
3. Organic Solar Cell.

INVITATION

You are cordially invited to *The 1st KIST Forum on
Pioneers in New Concept Solar Cells* and the *2nd
Korea-Japan Bilateral Joint Workshop on
Dye-sensitized and Organic Solar Cells*, which will be
held on August 30 and 31, 2007 at KIST International
Cooperation Hall, Seoul, Korea. The KIST Forum will be
composed of all invited speakers and devoted to
discuss feasibility of the super-high efficiency solar
cells studied theoretically and the Korea-Japan joint
workshop will be devoted to discuss new science and
technology for dye-sensitized and organic solar cells.
We look forward to welcoming you in Seoul on this
special occasion.

CALL FOR PAPERS

Abstracts for poster presentations will be accepted only
for the 2nd Korea-Japan Bilateral Joint Workshop on
